

## **Trouble Season 1 Episode 5 Screening Kit:**

### **Discussion Questions:**

- 1. What does political affinity mean to you? What are some practical ways to build affinity with your comrades without exposing yourself to unnecessary risk?**
- 2. What are some effective methods for confirming people's identities without scaring people away from our movements?**
- 3. Have you or your comrades ever had any interactions with anyone who you believed to be an undercover cop? How did you handle it? Are there things you would do differently if you did it over again?**
- 4. Aside from the tools mentioned in this episode, are there any others you would recommend for more secure data storage and/or communications?**
- 5. What are some of the ways that various state security services might get around encryption (ie keyloggers, stealing PGP keys, etc)? What are some best practices to help minimize these risks and ensuring that you don't land in trouble because of an over-reliance on encryption?**
