

## **#12: THERE GOES THE NEIGHBOURHOOD**

**SCREENING  
KIT**

### **::DISCUSSION QUESTIONS::**

- 1. What does gentrification look like in your town/city? Are there any specific neighbourhoods where residents are currently facing displacement?**
- 2. What are some of the planned infrastructure or major development projects currently underway or planned in your city? Are there communities that are likely to be negatively affected by these proposals? Do you have a timeline for when this is likely to happen?**
- 3. What does 'getting out in front of gentrification' look like in practice? What are some of the tensions and issues facing people in your neighbourhoods, and what would organizing around these issues look like?**
- 4. Are there specific skill-sets that you have that would be useful for community organizing? Are there other specific skills or types of knowledge that would be useful in terms of doing this type of work that people could learn and/or share?**
- 5. How can struggles around housing expand to include other issues faced by working-class people living in urban environments?**
